

Taskwarrior - Bug # 209: 'task edit' of recurring task not working correct

Status:	New	Priority:	Urgent
By:	John Florian	Category:	core
Created:	07/13/2009	To:	Paul Beckingham
Updated:	07/17/2009	Due date:	
Subject:	'task edit' of recurring task not working correct		
Description:	<p>First, I:</p> <pre><pre> \$ task add due:mon recur:1w review all tasks and reprioritize/purge as required </pre></pre> <p>A short bit later, I wanted to revise the description and used 'task edit' to change this to read "review all tasks; categorize/prioritize/purge as required". The feedback was:</p> <pre><pre> Editing complete. Edits were detected. Description modified. </pre></pre> <p>However:</p> <pre><pre> \$ task next</pre> <pre><snip> ID Project Pri Due Active Age Description 50 M 7/20/2009 1 min review all tasks and reprioritize/purge as required <snip> </pre></pre> <p>Looking at pending.data, I see the description was changed on the child entry, but not the parent.</p>
